

Quality Assurance for Deep Foundations

Fritz Koltermann

Friend of GRL Fritz Kolterman passed away on November 30.

Fritz had been an engineer with DELMAG and Pileco and eventually Foundation Equipment Company (FEC) of Dover, OH which he managed until his retirement.

During the past 8 years, Fritz engineered GRL's APPLE systems and generously helped GRL with his well reasoned advice, knowledge and experience.

Fritz will be greatly missed, indeed. The Dover Bob Evans will have an empty chair now.
