

Dr. George Goble was honored at the Geolnstitute's July 2004 GeoTrans conference with a new book published in honor of his pioneering contributions to the advancements of the state of the art of deep foundations. The book, *"Current Practices and Future Trends in Deep Foundations"* was edited by Mohamad Hussein, GRL Engineers and Jerry A. DiMaggio, FHWA and presents 26 papers on developments in deep-foundation design, construction, testing and inspection which can save time, reduce cost, improve quality and enhance performance. The book can be purchased for \$69 from the ASCE Web site at www.asce.org/bookstore/book.cfm?book=4503. Pictured from left to right are Mohamad Hussein, GRL Engineers; PDCA President Randy Dietel; Wayne Waters, PDCA past president; and Dr. George Goble.
